

Selection & Specification Data

Generic Type	Citric acid solution
Description	Carbozinc (water based) Neutralizing Solution is an organic and biodegradable product designed specifically for use with Carbozinc and Carboweld water-based, inorganic primers. It is an environmentally safe product that will clean, neutralize (lower the surface pH), and degrease the water-based Carbozinc/weld primers for topcoating. This product does not contain any bleach, chlorinated solvents, phosphates, muriatic or ozone depleting ingredients.
Features	<ul style="list-style-type: none"> ▪ Water-based, biodegradable ▪ Easy to use
Color	Clear liquid
Coverage Rate	Apply liberally. Approximately 200-250 ft ² per gallon.
VOC Values	None (water based)

Preparation and Application

General Apply liberally by brush, roller, pump-style sprayer, airless or pressure washer. On vertical surfaces start from the bottom and work up. Wait 2 hours; agitate the surface with scrub brushes or similar and rinse or power wash. Allow to thoroughly dry and check for pH. Optimum pH should be in the 5-7 range.

Special Information:

Solution is corrosive. Wear chemical resistant gloves, apron, footwear, and eye/face protection

Packaging, Handling & Storage

Shipping Weight (Approximate)	5-Gal 45 lbs	50-Gal Drum 485 lbs
Flash Point (Setaflash)	None (water-based)	
Storage (General)	Store indoors.	
Storage Temperature & Humidity	40-110°F (4-43°C) 0-90% RH	
Shelf Life	36 months@75°F	

*Shelf Life: (actual stated shelf life) when kept at recommended storage conditions and in original unopened containers.
